

7 Queen Street Port Albert VIC

3 2 7

Completely refurbished home is ready for its new owner! The design of this property is fantastic! The bottom floor is fully self-contained with a kitchen/lounge area, separate bedroom, and new bathroom. Reverse A/C with sliding door stepping out into the back yard.

Venture upstairs and find a further two bedrooms, a second kitchen and bathroom replaced in the last six months and a spacious living zone. A second reverse A/C installed. Full kitchen with dishwasher and new appliances. Floor tiles and floating floors along with a completely new coat of paint. All windows have insect screens fitted and new electric power saver HWS installed.

The beauty of the design being that the home is an idyllic holiday style home with two independent areas or alternately lease/or holiday let either area. This is an extremely versatile layout suitable for a variety of uses.
